

# STAGE 2 SPEAKING

## SAMPLE B

# INTRODUCTION

The Speaking examination is a face-to-face examination with two Candidates and one Examiner present. It takes the form of a board game.

The rules of the game are explained by the Examiner in the Candidates' first language. If the Examiner does not speak the Candidates' first language, or the Candidates do not share the first language, an additional person appointed by the school may explain the format of the examination.

Candidates take turns to roll a dice and move along the board, answering questions about the images they see and taking part in 'challenges' which are presented on the game cards. There are five types of challenge, each focusing on one or more specific language skills.

The challenges are used in a specific order by the Examiner. As they play, the Candidates answer a simple question about the image on the square they land on, e.g. What is it? What colour is it? What number is it? prior to being given a challenge. Once all the challenges have been completed, the Candidates keep rolling the dice in turn and answering simple questions about the images until one of them has completed the game.

All five challenges are unprepared, i.e. the Candidates do not know the questions they will be asked or the images they will be given in advance of the examination.
